

Report B2F Day 13 June 2018

After the students had spent their week in Luxembourg, they prepared individual written reports about the year's project, reflecting on the work they have done, the benefits they experienced and what they have learned. These individual reports were combined into a complete report (see attachment 1).

They also prepared a short presentation for the second classes of our school to report on what they have done, show the students the value of the project work and to encourage these students to participate in an Erasmus+ project in the future.

The second class students were able to ask questions about the experiences of the older students.

A copy of the report, an example of the certificate (see attachment 2) received by each student upon completion of this project year and a copy of the final brochure (see website) were also sent to the Central Management Team of Piter Jelles Montessori (Wiebe Wieling and Folkert Bangma), to Alderman Hilde Tjeerdema from the Municipality of Leeuwarden (whose portfolios include Youth Policies, Youth Law and Primary and Secondary Education, among others), to MEP Marietje Schaake in Brussels, whom we met at the Q and A in Strasbourg as part of the student mobility to Luxembourg in March 2018, and to Yvonne Ruijters, Deputy Head of Mission at the Embassy of the Kingdom of the Netherlands in Luxembourg, to whom an invitation was extended for the final student presentation on Youth Criminality on 16 March 2018.
